

Training on Reliability Statistics for Questionnaires

March 20, 2021 & March 27, 2021

Via Zoom Teleconferencing

The Asian Association for Academic Integrity, Inc. (AAAI) with SEC Registration No. CN201619469 inviting you to participate the training about **“Training on Reliability Statistics for Questionnaires”** on March 20, 2021 and March 27, 2021 via Zoom.

Rationale

Valid and reliable questionnaires are the bedrock of quality research. Can questionnaires really measure what they are supposed to measure? If the answer is no, then all the results, discussion, conclusions, and recommendations are useless. Sadly, reliability statistics are not well taught, so this training is a big help.

The program will be conducted online with live virtual interactive sessions via Zoom Teleconferencing by Dr. Ivy Corazon C. Mangaya-ay, Ph.D. in Statistics - University of the Philippines, Diliman and a Professor of Bohol Island State University, Tagbilaran City, Bohol.

Training Objectives:

- (1). To determine the sample for reliability statistics for questionnaire;
- (2). To determine internal consistency of scaled instrument; and
- (3). To learn the application of exploratory factor analysis.

Webinar Fee:

Members and non-members: 3,000.00 Php.
