

Training-Workshop on the Best Practices in the Teaching of Research: Blending Pedagogical Techniques and Smart Technologies

March 25-27, 2019
Cagayan de Oro City, Philippines

In today's digital divide with students having little knowledge of how the scholarly process works, interactive pedagogy and effective praxis spell the difference. Both a daunting and challenging task for educators, research instruction should be able to weave research theories, principles and knowledge with current available technologies. With pedagogy developing students' critical and strategic skills and technology molding their procedural skills, how can a teacher efficiently blend pedagogical techniques with smart technologies in the teaching of research?
