

Training-Workshop for Peer Reviewers Using the Scopus and ISI Standards

May 29-31, 2024

Selah Garden Hotel, Pasay City, Philippines

Evaluating the authenticity, novelty, caliber, and integrity of research manuscripts considered for publication, the peer review process serves as a bedrock of good science. As a central pillar of trust for researchers, the process' crucial yardstick lies on determining the scientific standards which will gauge the peer reviewer's decision on whether to accept or reject papers for publication. As leading databases in scholarly publishing, Scopus and Clarivate Analytics (ISI) play a pivotal role in upholding these standards by employing stringent criteria for indexing journals and assessing the impact and relevance of published research. Serving as both gatekeeper and sentry of journal quality and research ethics, how can one become an adept peer reviewer safeguarding the academia against publications riddled with unfounded claims, significant errors, and ethical lapses?

Sharpening the saw of peer reviewers through skills development, the **Asian Society of Teachers for Research Inc.** invites you to the **Training Workshop for Peer Reviewers Using Scopus and ISI Standards** on **May 29-31, 2024** at the **Selah Garden Hotel, Pasay City, Philippines.**

TRAINING-WORKSHOP OBJECTIVES:

- (1) *To learn the journal publication standards of Scopus and ISI (Clarivate Analytics) as the framework of peer review;*
- (2) *To determine the roles and functions of peer reviewers in the quality assurance system of scientific journals; and*
- (3) *To acquire skills in peer reviews; and,*
- (4) *To utilize various technologies of research and AI in the peer review process.*
