

Training-Workshop on Statistics for Research Teachers, Advisers, and Panelists in Multidisciplinary Fields Using Open-Source Software Applications

October 29-31, 2025

Holiday Suites, Puerto Princesa, Palawan, Philippines

In an era defined by the rapid convergence of digital technologies, the landscape of academic research has undergone a profound transformation. At the heart of this evolution lies a powerful trinity: the availability of robust statistical methodology, the democratizing influence of open-source software, and the transformative capabilities of artificial intelligence. For research teachers, advisers, and panelists in today's multidisciplinary environment, a deep understanding of how this trifecta interacts is not merely advantageous; it is foundational to producing, guiding, critiquing, and evaluating high-quality scholarly work. Requiring more than traditional statistical knowledge, the ability to navigate this new paradigm also demands practical technological proficiency with available statistical tools and a critical AI sensibility for both data analysis and research ethics. With an academic landscape that demands a unique blend of statistical literacy, technical proficiency, and critical AI capability, how can one become a research teacher, adviser, and/or panelist that guides students in producing meaningful, rigorous, and impactful research work?

Cultivating and developing the statistical knowledge and skills of research teachers, advisers, and panelists, the **Asian Society of Teachers for Research, Inc.** holds the **Training-Workshop for Research Teachers, Advisers, and Panelists on October 29-31, 2025** at the **Holiday Suites, Puerto Princesa, Palawan, Philippines!**

OBJECTIVES OF THE TRAINING-WORKSHOP:

- To enhance understanding of core statistical concepts and principles as research teachers, advisers, and panelists;
- To learn the practical application of statistical methods using open-source software;
- To develop expertise in interpreting and visualizing research data; and
- To critically evaluate the role of AI applications and tools in statistical analysis.

RESOURCE SPEAKER BIONOTE

Dr. John Vianne B. Murcia

Director, Research Development, Publication and Accreditation

Jose Maria College Foundation

Our trainer has a background in Marketing and a passion in statistics and data analysis. He obtained an MBA in Corporate Management from the University of Southeastern Philippines and a second master's degree in Predictive Analytics, focusing on Asset Management and Productivity, from Curtin University in Perth, Western Australia. He also holds a PhD holder in Development Research and Administration from the University of Southeastern Philippines. He was the University Statistician and Research Director as well as a specialist of the University Of Mindanao Institute of Popular Opinion (IPO) for 7 years, overseeing the collection and

analysis of data and dissemination of various popular opinion studies concerning Dabawenyos. He is now working on studies that use machine learning and artificial intelligence for day-to-day applications in complementarity with his visiting professorial lecturer status of Predictive Analytics and Machine Learning at University of Southeastern Philippines' College of Development Management in Davao City, Philippines. Moreover, he is the managing editor of the Journal of Economy and Enterprise Studies (JEES), the research journal of UM for studies under the business and economics cluster. In April 2024, he joined Jose Maria College Foundation, Inc. and is currently the Director for Research Development, Publication and Accreditation.
