6th Asian Virtual Conference on Institutional and Action Research 2024
(6th AVCIAR 2024)
November 28-30, 2024 via ZOOM Teleconferencing

From the success of the **4th International Conference on Development Education 2024** co-hosted by the Philippine School Doha and participated by more than 100 presenters, speakers, students, and guests from the Philippines, Qatar, and United Arabs Emirates on **May 3-5, 2024**, the **Asian Society of Teachers for Research, Inc.** invites students, students, scholars and educators to the **6th Asian Virtual Conference on Institutional and Action Research 2024** on **November 28-30, 2024,** which will be conducted virtually **via ZOOM Teleconferencing**!

Themed, ***"Empowering Education, Fostering Resilience: Pioneering Action and Institutional Research for Sustainable Futures"*** the AVCIAR 2024 aims to: *(1) share best practices through institutional and action research that exemplifies resilience, adaptability, and empowers individuals, institutions, and organizations; (2) disseminate results of thesis/dissertation in basic, tertiary and graduate education levels; and (3) to draw new perspectives in solving educational and organizational problems and sustainability challenges in a post-pandemic educational landscape.*

From merely passively imparting knowledge to actively empowering individuals with the skills and resilience necessary to navigate complex global challenges, pioneering action in education involves not only rethinking what is taught but also how it is taught. It requires educational leaders and researchers to innovate and implement new pedagogical strategies that reflect the dynamic needs of society. Going beyond the four walls of the classroom, educational institutions should be able to mold and nurture a generation of critical thinkers, adaptable learners who are not just proactive in driving positive, lasting change but also resilient enough to navigate the uncertainties and volatility of the current educational landscape.
