

Designing Thesis/Dissertation Proposal for Publication, Citation and Utilization of Results

December 8-9, 2022

9:00 am – 5:00 pm PhST

Via Zoom Teleconferencing

The research proposal is your chance to discuss the importance of your project with groups who might want to assist it financially. Ideally, it will show both the caliber and significance of your project and your capacity to carry out the suggested research. In this training, we provide participants with guidance on topic selection, stakeholder engagement, writing a research review of the literature, designing an instrument, selecting a journal for publication, enhancing citation and utilization when finished.
