

## Mainstreaming Research in Academic Subjects

October 10-12, 2019  
Dynasty Court Hotel  
Cagayan de Oro City, Philippines

There is a widespread trend that research skills are taught only in research class, which is too late. Since first year, research should form part of the pedagogy in academic subjects as means to make teaching and learning evidences-based practice.

### Objectives:

1. To learn a refreshing new mindset of mainstreaming research seamlessly in academic subjects;
2. To acquire skills in using scientific literature as supporting evidences in teaching the lesson;
3. To adopt strategies in validating the lessons through research investigations.

### Day 1:

October 10, 2019 (Thursday)
