

**TRAINING ON DESIGNING ACTION RESEARCH FOR SCIENTIFIC PUBLICATIONS**

Dynasty Court Hotel, Cagayan de Oro City, Philippines

January 21-24, 2019

The International Association of Scholarly Publishers, Editors and Reviewers (IASPER) with the SEC Registration No. CN201433407 is once again inviting you to participate in the Training on Designing Action Research for Scientific Publications that will be staged on January 21-24, 2019 at Dynasty Court Hotel, Cagayan de Oro City, Philippines

***Rationale***

Action research is the most popular type of research among teachers but is the least understood. There are annual research presentation but do not result to publication of manuscript. Thus, action research becomes a futile exercise of teachers intended only to generate points for faculty ranking and promotions. Action research is often confused as having the same structure and process as correlational research required for thesis and dissertation. Most schools do not have clear cut policies and guidelines on action research which results to different version of the genre. Many editors do not accept action research for publications due to lack of representativeness or external validity since the sample is limited. Thus, this training is conducted.

The objectives of the training are to:

1. Design action research from the perspective for organizational development interventions;
2. Learn best practices in conducting action research;
3. Write action research for acceptance by Editors of scientific publications; and
4. Acquire techniques in presenting action research in conferences.
